

Harshita Rajesh Solanki

Full Stack Developer

Nallasopara (East), Mumbai | +91 9730576087 | harshu131203@gmail.com

Portfolio: harshita-dun.vercel.app | GitHub: github.com/harshitasolanki13

SUMMARY

Full Stack Developer trained in front-end and back-end web development, with project experience building responsive applications in React.js, JavaScript, Node.js, Python, and MySQL. I work comfortably on Linux with Git and GitHub, and I use AI coding tools such as Claude and Codex to speed up development and review. Recent work includes a live e-commerce style site with a custom admin panel and a quality-assurance internship checking sites before client handover. Looking for an entry-level developer role where I can keep building and shipping real projects.

TECHNICAL SKILLS

Languages: HTML5, CSS3, JavaScript, Python

Frameworks & Libraries: React.js, Node.js, Bootstrap 5

Databases: MySQL, SQL queries

Version Control: Git, GitHub

Operating Systems: Linux (Ubuntu/Debian), Windows

AI & CLI Tools: Claude CLI, OpenAI Codex, AI-assisted code generation & review

Design & Prototyping: Pencil Project (wireframing), Figma (basics)

Dev Tools: VS Code, Chrome DevTools, Postman, npm/pip

Practices: REST API design, responsive & mobile-first layouts, semantic HTML, accessibility

EXPERIENCE & TRAINING

Quality Checker (Intern) — Siteonlab AI Solutions

Internship

Tested completed websites before client handover, working through each site to confirm it functioned as intended.

- Reviewed live sites end to end to check that pages loaded correctly and every link worked.
- Verified responsiveness across screen sizes, flagging layout and display issues for the dev team.
- Walked through the full site structure and page flow to confirm navigation behaved as expected.
- Reported issues clearly so they could be fixed before the project was delivered to the client.

Full Stack Developer Training — Digifine Academy

2025 – 2026

- Completed a full-stack curriculum covering front-end and back-end web technologies.
- Built and deployed web applications using React.js, Node.js, and MySQL.
- Used Git for version control and followed REST API and Linux-based workflows.
- Used AI CLI tools (Claude, Codex) for code generation, debugging, and documentation.

PROJECTS

ArtyLevii Creations — E-commerce Site with Admin Panel

Live: levis-eta.vercel.app

React.js, JavaScript, Node.js • deployed on Vercel

- Designed the site structure and overall design flow before starting development.
- Built an admin user role so product and site content can be updated directly through an admin panel rather than editing code.
- Deployed the site live on Vercel and compiled it following best practices for a clean, maintainable build.
- Implemented a responsive layout that works across desktop and mobile.

Personal Portfolio Website

Live: harshita-dun.vercel.app

React.js, CSS3 • deployed on Vercel with GitHub CI/CD

- Built a responsive portfolio in React.js to showcase my projects and skills.
- Deployed through Vercel with an automated pipeline connected to GitHub.

- Planned the UI with Pencil wireframes before coding, using semantic HTML and a mobile-first layout.

EDUCATION

Bachelor of Management Studies (Finance) — Prahladrai Dalmia Lions College	<i>2022 – 2025</i>
CGPA: 8.74/10	
Higher Secondary Certificate (HSC) — Viva College	<i>2020 – 2022</i>
73.50%	
Secondary School Certificate (SSC) — K.M.P.D High School	<i>2020</i>
78.40%	

CERTIFICATIONS & ADDITIONAL

- Full Stack Web Development — Digifine Academy (2025–2026).
- Maintain personal projects and code on GitHub.
- Familiar with Agile/Scrum and collaborative development.
- Available for immediate joining; open to hybrid and remote roles.
